Flavour

A high-speed photograph of a thick, dark chocolate liquid splashing upwards and curling into a spiral. The chocolate is glossy and has a deep brown color. Numerous small, clear sugar crystals and several whole and halved hazelnuts are suspended in the air around the chocolate splash, creating a sense of motion and texture. The background is a solid, deep black, which makes the chocolate and the suspended particles stand out.

Musk

A collection of musk deer testicles, known as musk pods, are arranged on a dark, textured wooden surface. The pods are light brown with a fibrous, net-like texture. Some pods are whole, while others are cut open, revealing a dark, hollow interior. A pile of fine, brown powder is scattered on the surface near the center. In the bottom right corner, a portion of a dark stone mortar and pestle is visible, suggesting the grinding of the pods into powder.
